

# Plast Camp *Novyi Sokil*

## Winter 2024 Update

*Photos from 2023 events at Novyi Sokil*

Dear Novyi Sokil supporter,

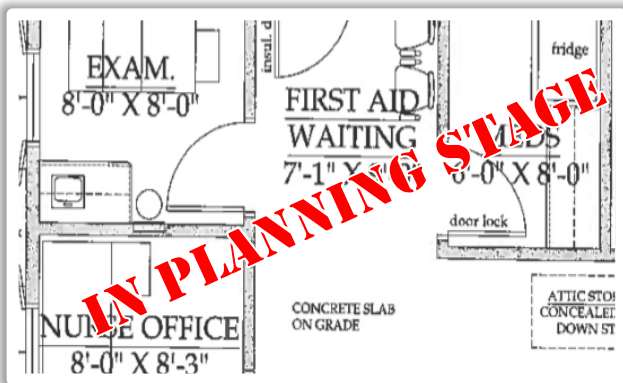

Please enjoy this brief update regarding Novyi Sokil. Thank you for your support of our oselia!

### 2023: A Busy Year at Novyi Sokil!

In 2023, Novyi Sokil had a busy schedule hosting various Plast events, including: Sviato Vesny led by the Kurin "Pershi Stezhi," novatkskyj vyshkil (counselor training camp), okružhni tabory (summer camp for scouts) in July, and in the fall, the annual meeting of the Kurin "Vovkulaky." We are happy to see the Plast community benefitting from Novyi Sokil as a venue for conducting all types of events.

### "3 Buildings for Sokil" Campaign Update

After having successfully replaced a scouting barrack in 2019 and refurbished the poolhouse in 2021, Novyi Sokil is now in the planning stage of the third and final building of the namesake "3 Buildings for Sokil" capital fundraising campaign: the medical/administration building. This will be a complex project, requiring compliance with governing accessibility and building codes. We will likely need at least \$50K in new donations in order to break ground. If you are able to help, please visit our [website](#) for details. Thank you to our donors!

### Sports Field/Parking Lot Refurbishment

During the fall of 2023, Novyi Sokil's sports field was regraded to improve drainage and provide a more level surface for sporting activities. A crushed stone parking area was also added adjacent to the access road to reduce a risk of vehicles becoming stuck during rainy periods.
